The screenshot shows a Trello interface in Google Chrome. The browser's address bar displays the URL <https://trello.com/c/GqEJh9Vj/1-brainstorm>. The Trello board is titled 'Medirecord' and contains a card named 'Brainstorm'. The card's details are as follows:

- Description:** generate project ideas, select porject
- Checklist:** 0% complete. Items include 'generate project ideas' and 'select project'.
- Activity:** A list of actions including 'James Hicks completed patient and doctor logins on Develop' and 'James Hicks made this board visible to members of its team'.

A red error message 'Connection interrupted. Retrying...' is displayed in the top right corner of the card's modal. The browser's taskbar at the bottom shows several open tabs, including 'Inbox - the.hick...', 'Terminal App', 'thehicksivist/...', 'Brainstorm on T...', 'Learn Ruby | Co...', 'software devel...', 'README image', and 'James'.
